

The Evolutionary Biology Papers of Elie Metchnikoff (Hardback)

Filesize: 8.08 MB

Reviews

Very beneficial to all of type of individuals. This can be for those who statte that there had not been a really worth reading. You will not really feel monotony at at any time of your respective time (that's what catalogs are for concerning should you ask me).

(Michale Shields)

THE EVOLUTIONARY BIOLOGY PAPERS OF ELIE METCHNIKOFF (HARDBACK)

Kluwer Academic Publishers, United States, 2000. Hardback. Book Condition: New. annotated edition. 236 x 160 mm. Language: English . Brand New Book ***** Print on Demand *****.Elie Metchnikoff (1845-1916), winner of the Nobel Prize in 1907 for his contributions to immunology, was first a comparative zoologist, who, working in the wake of Darwin's *On the Origin of Species*, made seminal contributions to evolutionary biology. His work in comparative embryology is best known in regard to the debates with Ernst Haeckel concerning animal genealogical relationships and the theoretical origins of metazoans. But independent of those polemics, Metchnikoff developed his phagocytosis theory of immunity as a result of his early comparative embryology research, and only in examining the full breadth of his work do we appreciate his signal originality. Metchnikoff's scientific papers have remained largely untranslated into English. Assembled here, annotated and edited, are the key evolutionary biology papers dating from Metchnikoff's earliest writings (1865) to the texts of his mature period of the 1890s, which will serve as an invaluable resource for those interested in the historical development of evolutionary biology.
