THE SYSTEM WORKED: HOW THE WORLD STOPPED ANOTHER GREAT DEPRESSION

Oxford University Press Inc. Hardback. Book Condition: new. BRAND NEW, The System Worked: How the World Stopped Another Great Depression, Daniel W. Drezner, Global governance institutions, from the International Monetary Fund to the International Olympic Committee, are little loved. They are perceived as bastions of sclerotic mediocrity at best and outright corruption at worst, and this perception is generally not far off the mark. In the wake of the 2008 financial crash, Daniel W. Drezner, like so many others, looked at the smoking ruins of the global economy and wondered why global economic governance institutional had failed so spectacularly, and what could be done to reform them in the future. But then a funny thing happened. As he surveyed their actions in the wake of the crash, he realized that the evidence pointed to the exact opposite conclusion: global economic governance had succeeded. In *The System Worked*, Drezner, a renowned political scientist and international relations expert, contends that despite the massive scale and reverberations of this latest crisis (larger, arguably, than those that precipitated the Great Depression), the global economy has bounced back remarkably well. Examining the major resuscitation efforts by the G-20 IMF, WTO and other institutions, he shows that, thanks to the efforts of central bankers and other policymakers, the international response was sufficiently coordinated to prevent the crisis from becoming a full-fledged depression. Yet the narrative about the failure of multilateral economic institutions persist, largely because the Great Recession most affected powerful nations whose governments made poor decisions in the management of their own economies. Also, the most influential policy analysts who write the books and articles on the crisis hail from those nations. Nevertheless, Drezner argues, while it's true that the global economy is still fragile, these institutions survived the "stress test" of the financial crisis,...
