Very little research has hitherto been done to solve problems whose human elements are much more various than those of chemistry. History fortunately provides us with problems sufficiently parallel to give the main direction of our search for a solution. This Manual, then, is mainly a series of semi-detached cases treated so as to expose a few general principles or rules in order to stake out a claim for man management to be given the status and attention due to a scientific study. A few cases thus discussed in a student's course will awaken interest in them, and furnish him with centres of growth and comparison for right treatment during his works career, so that afterwards he will readily understand contemporary progress, and assimilate its results as they occur. Fortunately, too, this method is also best for foremen and others now fully occupied in man management. Labour difficulties increase daily, and must be solved at once. Reconstruction and a better understanding between man and management, rather than between labour and capital, cannot wait for a race of supermen. The salvation of British industry and the building up of another merrie England depend on those engaged in it to-day. It is with some appreciation of their solemn trust - whether assumed or imposed all unwittingly - that this short Manual...
